

SALLY WORKS WITH ONE HAMMER

Adapted from the Traditional

Sally works with one hammer, one hammer, one hammer, Sally works with one hammer,
Now she works with two.

Sally works with two hammers, two hammers, two hammers, Sally works with two hammers,
Now she works with three.

Sally works with three hammers, three hammers, three hammers, Sally works with three hammers,
Now she works with four.

Sally works with four hammers, four hammers, four hammers, Sally works with four hammers,
Now she works with five.

Sally works with five hammers, five hammers, five hammers, Sally works with five hammers,
Now she goes to sleep!

Children start with one arm and fist as the first hammer. One by one, add the other arm, each leg, and finally the head to make five hammers moving. You can substitute your child's name and names of other family members for the very busy "Sally" in this song.

Los niños empiezan a hacer el movimiento del el primer martillo con un brazo y un puño. Uno por uno van agregando otro brazo y pierna y al final la cabeza haciendo el movimiento do cinco martillos. Pueden usar el nombre del niño en vez de el nombre Sally.
